**Application for Improvement of Grades
for Master Biochemistry and Microbiology**

Family name, first name: Registration number:

Degree programme:

Herewith I apply for an improvement of grades for the following module:

Module:..... Module number:.....

Examination:..... Examination number:.....

A passed examination can be repeated once to improve the grades if this does not lead to an extension of the study period beyond the regular study period. The better grade will be taken into account.

An improvement of grades is not possible for practical courses, specialisation module, project module and master thesis as well as passed re-examinations.

The retry of a passed examination has to be applied for in written form to the study and examination committee not later than one week after publication of the examination grades. The retry usually takes place at the next regular examination date.

The examination took place on

The date of publication of my examination grade was

I assure that my statements are complete and correct.
